Biggest Scumbag In Oso History?

Just wondering who you consider to be the biggest scumbag in oso history?
TROUTLY: Molested his 14 year old niece
FRED CECIL:ripped off countless members
CHRIS FLOOD: just an all around tool
BIG SCOTTY: all around con artist
***** : oso member who it seems has been recently incarcerated by the feds for stealing/stripping several high end boats and making everyone's insurance go way up??

How about the driver that hit and killed an OSO member from NJ, and then drove off?

seriously mika, should you not be drunk at a customers house using their computer and posting under one of your 50+ oso names? If you hate this site so much why bother coming for the sole purpose of just being a troll?

Fred obviously personally screwed the most people on this web site and many others. I have to go with Troutly however based on the fact that what he did to a little girl was just beyond reproach. Unfortunately to add to the issue the girl passes not long after that in a car accident.

Fred and Big Scotty I feel were the worst. They made friends with us and screwed us. I actually feel like I should be on the OSO poll for biggest suckers as I was taken by 3 of the above mentioned. The worst part about these guys is they make you question your judgement in who you choose for friends. I only considered Fred a friend of the 3, but I liked the other 2 and that really made me put my guard down. I find myself much more suspicious of people contacting me to buy things I'm selling or people I'm buying things from. I don't like being so suspicious. Besides stealing money from us they stole my trust.

My vote would have to be: TROUTLY: Molested his 14 year old niece .
There is nothing worse then molesting a kid.
If someone ever did that to one of my kids I would track them down and the would DIE a slooooooow painful death. :angry-smiley:
